About...

Dental Care in Cleveland County

Why is Dental Care Important?

- 1. Prevention of cavities** - Cavities are painful places on your teeth where decay has eaten through the enamel and exposed a tooth's root. Hot or cold food or liquids can send a painful signal that something is wrong.
- 2. Prevention of gum disease**- if untreated. Gum disease or periodontal disease may cause loss of teeth, infections and other complications.
- 3. Self Esteem**- A healthy smile helps boost a person's confidence.
- 4. Spotting Other Health Issues**- dentist aren't just looking at your teeth and gums during your visits. Dentists examine your mouth, throat, tongue, neck, and face for signs of potential health issues, including cancer.
- 5. Improving Overall Health**- If your dental hygiene suffers, it may lead to other health conditions, including heart disease. People with diabetes and gum disease may find it more difficult to keep blood sugar levels under control.

The Cleveland County Public Health Center offers a Dental Clinic at 200 South Post Road, Shelby, NC 28152. The Dental Clinic is open Monday-Friday from 8:00 a.m. until 5:00 p.m. by appointment only to serve patients ages 0-21 and pregnant women. Appointments may be made by calling 980-484-5260.

The Dental Clinic is staffed by a dentist, dental hygienist, dental assistant and clerical support staff. The services provided include: examinations, x-rays, cleanings, fillings, extractions, sealants, and dental health education. Patients who qualify financially are seen and billed on a sliding fee scale. Medicaid, Health Choice and private insurance are also accepted. Services are provided to pregnant women of any age who have Medicaid or private insurance. If pregnant patients do not have any insurance, they are provided services on a sliding fee scale.
